NV	The Plough Barrel Tawny Port ( <i>see details below</i> )	Yenda NSW	11.5	–

## A postulated history of The Plough "barrel" – open to discussion...

This barrel is made from French oak and started its life as a sherry barrel in Spain.

The barrel, with its sherry contents, was sold to the wine merchants of London.

Once the sherry was consumed by the Poms, the empty barrel was sold to a Scottish distillery to age their whisky. The Scots preferred to use barrels that were 4-5 years of age, like this one.

Some time between 1880-1890 the barrel, full of Scottish whisky, was purchased by Brinds Distillery, Dunnstown, who used it for aging their brandy after the Scottish whisky contents were sold.

Around 1927, the Brinds Distillery moved their production to the Corio Distillery in Geelong where the barrel continued to be used for aging brandy.

The empty barrel was sold in 1972 to St Anne's Winery, Myrning where the barrel was filled with port made from Grenache grapes sourced from McLaren Vale, South Australia. Some time later, Frank (the original Cooper at St Anne's Winery) cut the barrel down to its current shape and reheaded it (possibly due to damage at one end).

In 2015 the barrel was rebalanced to produce a delightful drink to complement The Plough's fireplaces during winter.

All good ports are developed to be shared and enjoyed. This port is no exception. It requires regular consumption to allow continual rebalancing and blending while the French oak matures and develops the port's own personality and characteristics.

Enjoy a glass today. \$11.50
